SCHIEDEL CHIMNEY SYSTEMS LTD. PRODUCT TECHNICAL DATA SHEET

Terminal - Permeter Smooth

Schiedel PERMETER SMOOTH, the advanced double-wall system that is designed with installers in mind.

The simple push-fit connection means that locking bands are not required, which improves both style and functionality.

There is no need for any thermal insulation or on-site welding work, as Permeter Smooth comes will all the accessory range needed for internal and external installations.

PERMETER SMOOTH PRODUCT FEATURES

- Locking bands not required
- Corrosion resistant stainless steel
- Painted black
- Dense, superwool insulation
- Full range of accessories
- Up to 1200 °C heat resistant

EASY TO FIT AND ADDITIONAL SAFETY

Permeter Smooth features a distinctive SuperWool insulation that maintains its properties even under extreme temperatures, reaching up to 1200°C. Permeter Smooth's thermal expansion capability of up to 18mm ensures that it retains its structural integrity

SCHIEDEL CHIMNEY SYSTEMS LTD. PRODUCT TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

Specification	Data		
Fuel type	Wood only		
Diameter (internal)	130-200		
Diameter (external)	180-250		
Wall thickness (internal)	0.5mm		
Insulation thickness per diameter	25mm		
Weight per diameter (kg/m)	5.8 kg /m - 8.4 kg/m		
Outer case thickness	0.6mm		
Flue gas temp (dry)	450°C		
Inner liner material:	high grade stainless steel liner 444 : 1.4521		
Outer case material:	Painted black (RAL 9005)		
Insulation type:	Superwool blanket		
Thermal expansion	18mm		
Max. length free standing:	2.0 m above the last support		
Max. support spacing	3.0 m		
Average thermal resistance (200°C)	0.37m2 k/W		

CORROSION RESISTANCE

Chimneys are subject to significant corrosion attack by flue gas condensates, particularly from solid fuel. Permeter Smooth is specifically designed and manufactured to resist this corrosion.

CHIMNEY DIAMETER

The chimney size should be as recommended by the appliance manufacturer. Where there is a requirement for a flue diameter smaller than the appliance spigot, then the operational requirements of the appliance and the configuration of the flue must satisfy the flue sizing requirements of EN13384-1 for single appliances, and EN13384-2 for multi appliances.

For stove and chimney installers – whenever you register an installation with our easy to use, online guarantee registration portal, you will now accrue points based on the number of installations and installation type. So start to register your installations, taking full advantage of our Lifetime Guarantee on Flex and ICID, as well as guarantees on all
