PRODUCT DESCRIPTION

Pumice is a natural insulator; this is the unique property that separates pumice from all other chimney material.

Schiedel Isokern is noteworthy for its flue and chimney products manufactured using high quality pumice which is recognised throughout Europe and USA.

SCHIEDEL ISOKERN OFFERS:

- The unique feature of Schiedel Isokern against other chimney systems is that pumice is known for its natural insulating properties.
- Pumice allows the flue gases in the chimney to quickly reach their optimum temperature enabling the heating appliance to reach its optimum performance shortly after lighting.
- It keeps the chimney warmer longer as the heat output of the appliance decreases, once again aiding performance and reducing the likelihood of condensation and soot build-up.
- ISOKERN is a well reputed brand known for its durability, reliability and long lasting, robust performance, under the

Schiedel product portfolio.

- We have the Largest collection of masonry chimney & fire chest products
- Our products are CE marked
- Our products are tested to the appropriate EN standards

Isokern Pumice Double Module DM is CE Certified to EN1858 TÜV Cert no. 0036 CPR 90219 001
Isokern Pumice Chimney Liner is CE certified to EN1857 TÜV Cert no. 0036 CPR 90219 002
Isokern Magnum Firechest has been tested at the Fraunhofer Institut, Stuttgart, Cert no. P8-094/2006

CE Designation

Double Module DM System Chimney* T450 N1 D 3 G(00)

A useful app with guides on installation as well as step-by-step video guides.

This app was designed for installers to have all the information they require in a few quick clicks. This makes it easier for installers rather than having to carry paperwork during the installation process with video breakdowns of each stage of the installation process.

Download the iPhone and iPad version in the App Store and Android version in the Google Play Store.
