

UE to ICID Adjustable Starter Section

This component is used to connect from the Metaloterm connecting flue pipe UE system to a Schiedel double wall ICID, allowing a reduced distance to combustibles, when compared with a SW connecting flue pipe.

Conical sleeve > Allows UE connecting flue pipe to push up inside the sleeve providing best in class aesthetics and adjustment on site

316L Stainless steel liner. > Excellent corrosion resistance

Push fit connection to UE connecting flue pipe. > Easy to install and allows for adjustment on site.
